

## Declaration of non use of

### Latex and natural rubber with allergenic potential

In the manufacture of **all** products supplied by Siegwirk, latex and natural rubber, or raw materials containing them, are not used as intentionally added ingredients.

The presence, however, of traces of these substances in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded. However, we proactively monitor and/or retrieve supplier data on impurities in raw materials likely to contain traces of such allergens. We can assure you that, according to the present scientific knowledge, potential traces of latex and natural rubber in our products, if any, are well below 0.1%.

The information in this document reflects Siegwirk's policy and commitments. This statement is valid without signature.
